EDUCATION

Institute Of Aeronautical Engineering	2023-Present
B.Tech in Computer Science and Engineering.	Current CGPA:**8.98**
Sri Chaitanya Junior college	2021-2023
Intermediate-TSBIE	Percentange:**98.1**
New Little Flower(EM) high school	2021
X Standard-SSC (TSBIE)	CGPA:**10.0**

TECHNICAL SKILLS

Programming Languages: Java,Python.

Tools and Frameworks: Visual Studio, Figma, Adobe XD,Canva,Tailwind CSS ,React.js ,Framer Motion ,Vite .

Frontend:HTML, CSS, JavaScript, TypeScript.

Backend: Node.js (JavaScript) ,PostgreSQL, MongoDB

INTERNSHIPS

Plasmid-Web Development Industrail Training and Internship   Jan-Mar 2025

Completed a 2-month web development internship at Plasmid, where I built and styled responsive UIs using HTML, CSS, JavaScript, and React.js, ensuring usability and clean component-based architecture

Internship on Deep Learning   May-2025

Worked with Python using Google Colab and Jupyter Notebook to implement deep learning techniques such as data augmentation, dropout, and learning rate scheduling for improved model generalization.

GrowAthlete-Design Intern   Aug 2025 - present

Design Intern at GrowAthlete, a sports startup, creating user-focused UI/UX designs and visual assets for web and mobile. Collaborated with teams to maintain brand consistency and enhance user experience using Figma and Adobe tools.

GS-HATCH-UI/UX and Web Developer Intern   Aug 2025 - present

Working as a UI/UX and Web Developer Intern at S-HATCH, where I design and develop responsive, user-centered web interfaces. I collaborate with the team to create intuitive designs and implement them using Figma, React, and modern web technologies.

PROJECTS

AI BASED INTERVIEWER   Jan-2025

Developed an AI-based interviewer application using Python and Streamlit, designed to simulate interview scenarios by implementing a question flow, scoring system, and real-time feedback based on user responses. Focused on creating a smooth, user-friendly interface with interactive elements that mimicked real interview environments, helping users prepare and improve their performance.

SHOPZEN-AN ECOMMERCE WEBSITE   July-2025

Built a responsive and modern eCommerce web application named **ShopZen** using React.js, Tailwind CSS, and React Router. The project featured dynamic product listings, category-based filtering, smooth UI interactions, and client-side routing. It followed UI/UX best practices including mobile-first responsiveness, clean layout, and animated transitions using Framer Motion. The frontend was styled with custom components, and the app was deployed globally using Vercel for fast access and performance optimization.

CERTIFICATIONS

Cerification on **UI/UX**- e-Designing and Marketing.	Apr-2024
Certification on **Python and Machine Learning** -DevTown	May-2024
Certification on **HTML CSS** - CourseEra	Mar-2025
Certification on **Programming in java:**-NPTEL	Jan-Apr 2025
